COLOR ... INSIDE & OUT

Color trends in furnishings inspire contemporary, modern and traditional designs in a kaleidoscope of bold, vibrant hues.

Furnishing with color has never been more fearless. From fashion runways to designer showrooms, color is a powerful tool that conveys profound emotions and sets the mood of a room. Stylish sofas, lounges, dining suites, accent pieces and elegant patio groupings dressed in rich, striking color convey an appeal that is timeless. Designers wrap vintage furnishings in retro hues of green, orange and aqua blue mixed with shades of brown; and palettes of sultry purple add glamour with a demure touch of pink accents. Clean and crisp, stripes and textured fabrics in cooler tones showcase pale blue and steely gray. Earth tones spread warmth with deep brown and adobe orange, while jewel tones in emerald green and ruby red lend a dash of sparkle and pizzazz to the mix. **M**
